EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- A. On page 73, of the claims filed 8/27/03, in claim 13, line 2, the phrase "to a patient." is amended to --to a patient in need thereof.--

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The IDS filed 1/30/04 has been considered. The references do not read on nor render obvious the claimed subject matter. The closest prior art reference is Hashimoto et. al. (See Reference U). The Hashimoto reference generically discloses a genus of compounds which would theoretically embrace the instant compounds, however, does not teach a trail leading to the instantly claimed compounds. See In re Baird, 29 USPQ 2nd, 1550 (1994).

The prior art reference does not teach nor suggest to one of ordinary skill in the art how to modify the prior art compound to derive the instant compound. Therefore, the instant claims are allowable therefrom.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
